

Hyundai Car Launch

Driving Innovation and Fan Engagement

Objectives

Primary Goal

Promote the launch of
Hyundai's new car model.

Secondary Goals

- Showcase Hyundai's technological leadership.
- Create memorable and shareable fan experiences.
- Drive traffic to Hyundai's website and local dealerships

Concept Overview

- Drive in New Jersey and Explore Hyundai's new car functions
- Try the car by playing a video game
- New leaderboard for each game day

Fan Journey

Pre-Event

Advertisements on Devils and Hyundai social media with the tagline: *"Experience the Future of Driving"*.

With a link to register and get a spot at the VR station.

Game-Day

Fans visit the VR stations before the game or during half-time.

Guided by Hyundai ambassadors, fans explore the VR experience.

Post-Event

Fans receive a email with highlights from the game and their VR session, with links to Hyundai's website.

Engagement and Promotion

Gamification

- Virtual “Drive to Win” leaderboard displayed live at the arena.
- Prizes for top drivers, such as a weekend test drive, Devils tickets, or Hyundai swag.

Social Sharing

- Fans receive clips of their VR experience, branded with Hyundai and Devils logos.
- Use hashtags: #DriveWithHyundai #DevilsVR and tag @hyundai @njdevils

Influencer Collaboration

- Invite influencers to share their VR experience on social media.

Metrics and Measurable Impact

Key Performance Indicators:

Fan Participation:

Number of VR sessions completed.

Social Media Metrics:

Impressions, shares, and hashtag engagement.

Website Traffic:

Click-through rates from event follow-up emails and QR codes.

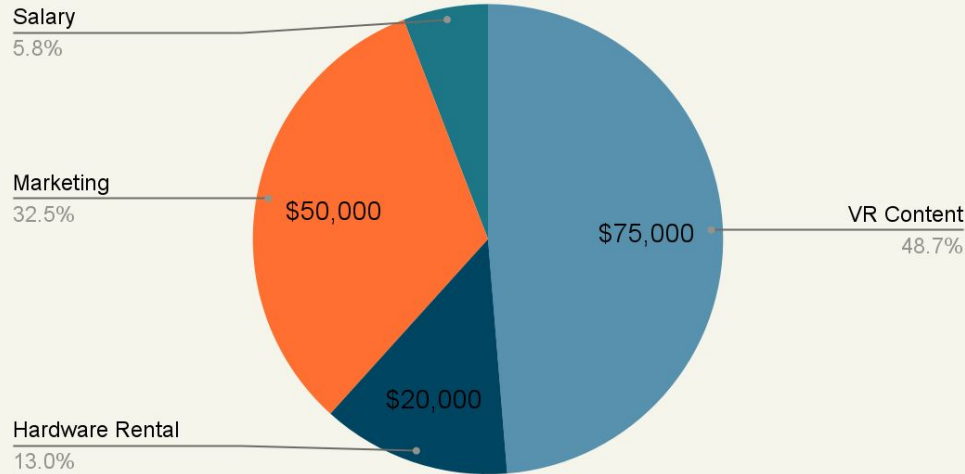

Local Dealership Visits:

Redemption of test drive or promotional offers.

Feasibility and Implementation

Budget for 5 games

Technology:

- Partner with VR firms specializing in automotive experiences (The Mill, Groove Jones).
- High-quality VR headsets (Meta Quest Pro or HTC Vive).

Logistics:

- VR stations in high-traffic areas.
- Staffing: Hyundai ambassadors to manage queues and assist fans.
- Duration: During the whole game.

Wrap-up

Slide 1:

- “Today, we present a cutting-edge idea that combines the innovation of Hyundai with the passion of New Jersey Devils fans to launch Hyundai’s newest vehicle.”

Slide 2: Objectives

Our primary goal is to promote the launch of Hyundai’s new car model. We want people to try the newest features on our brand new car. We aim to strengthen the brand’s image as an innovator.

Our secondary goals are to showcase Hyundai’s technological leadership, to create memorable and shareable experiences by using both a marketing strategy and a unique gaming experience, and finally, to drive traffic to Hyundai’s website, social medias and local dealerships.

Slide 3: Concept Overview

VR Test Drive Experience:

Set up immersive VR stations around Prudential Arena where fans can "test drive" Hyundai's new car in a virtual environment. This experiences would include racing through New Jersey while using every new features in the car, until getting to Prudential center and arriving on the ice where all the players from the team would be celebrating your score

The game would be a challenge where fans navigate a virtual track to get the highest score and win a prize.

Slide 4: Fan Journey

Before the game, we will have ads on Devils and Hyundai social media with the slogan: *"Experience the Future of Driving"*. A pre-registration link for fans to reserve a spot at the VR station would be post online and sent to anyone who bought a ticket online.

On game-day: fans visit the VR stations guided by Hyundai ambassadors, and explore the VR and Hyundai experience.

After the game, fans will receive an email with their highlights from their game session, with links to Hyundai's website, with a promotion.

Slide 5: Enhancing Engagement and Promotion

Gamification: A virtual leaderboard will be displayed live at the arena. All the fans need to see it, and to be aware that there is a prize to win. Prizes will be given to top drivers, such as a discount for a car bought, a week to test our new car for free or free Devils tickets. The jumbotron will be showing players driving during time-outs and intermissions.

Social Sharing, Fans will receive clips of their VR experience that they can easily share to their friends and family, branded with Hyundai and Devils logos and the hashtags: #DriveWithHyundai #DevilsVR.

We will also use influencer passionate in cars to collaborate with us, and reach a broader audience

Slide 6: Metrics and Measurable Impact

The key performance indicators are:

- The fan participation (which is the number of VR sessions completed.)
- The social media metrics such as the impressions, shares, and hashtag engagement.
- The website traffic: Click-through rates from event follow-up emails and QR codes.
- Local dealership visits: redemption of test drive or promotional offers.

Slide 7: Feasibility and Implementation

Technology:

We will partner with VR firms specializing in creating virtual experiences (The Mill, Groove Jones), and game developments companies. They will help us to create the best experience that a fan can live. We will use high-quality VR headsets such as Meta Quest Pro or HTC Vive to ensure the best rendering.

Logistics:

About the Logistics, we will have 5 stations in high-traffic areas like the concourse and the entrance, we need to be seen by as much people as possible. The staff will be made by about 15 Hyundai ambassadors. With 2 on each station and 5 who would manage queues, the reception, and assisting the fans. These station will be open during the whole game.

The budget will be significant but worth it.

The cost for the VR game development would be around \$75,000. The game needs a high quality, otherwise the reaction wanted from the customers would not be as expected. As we would use it for a few games We would rent the hardware to save money, with an estimated price \$10,000, I'm including the VR headset, seats, steering wheel...

For the marketing and giveaways: I think that the budget should be at least \$50,000. Especially if we want to give away a car to the winner of a game played by the fans. The salary for 15 people, for 5 games during 3 hours that we pay around 20 dollars an hour = \$4,500
